

Ekahau Honored by The Wall Street Journal

Ekahau's Wi-Fi-based Real Time Location Tracking System Recognized in 2006 Technology Innovation Awards

Saratoga, CA --- September 13, 2006 --- Ekahau Inc., a leading provider of Wi-Fi-based Real Time Location Systems (RTLS), this week was recognized in a special section featuring The Wall Street Journal's 2006 Technology Innovation Awards contest winners. Now in its sixth year, the contest honors technologies that represent a breakthrough from conventional methods rather than incremental improvements to existing technology.

This year's Wall Street Journal Technology Innovation Awards drew more than 600 applicants, which were scrutinized by panel of independent judges – representing industry, academia and research institutions. Winners were selected in 12 industry categories and 37 runners-up. Ekahau was named runner up in the wireless category.

Ekahau was honored for its leadership in the development of the Ekahau RTLS, which uses standard Wi-Fi infrastructure as the foundation for an economical wireless location tracking solution. Competitive systems such as various active RFID systems, require the use of proprietary and expensive infrastructure to track the location of assets or people.

Ekahau has the only non-proprietary RTLS solution that can be implemented 100 percent over standard Wi-Fi networks, and delivers the industry's best reliability and location accuracy. The technology is used in a number of markets – including healthcare, homeland security, government military, manufacturing, mining and supply chain – to streamline processes, improve customer service and comply with regulatory mandates such as Sarbanes-Oxley and JCAHO.

About Ekahau Inc.

Ekahau Inc. is the industry leader in providing Wi-Fi based RTLS solutions. Ekahau's customers, including several Fortune 500 companies worldwide, are realizing the benefits of Wi-Fi based location services and innovative Wi-Fi network planning and optimization tools. Ekahau partners include wireless software developers, leading system integrators, and international OEM partners, who develop and market wireless enterprise applications. Ekahau is a U.S. based corporation, with offices in Saratoga, CA; Reston, VA; Helsinki, Finland; and Hong Kong, China. For more information about Ekahau, please visit at www.ekahau.com
