

## **ECRIO-POWERED PUSHTALK ENABLED PHONES REACH 30+ MILLION ON NTT DOCOMO NETWORK**

*FOMA Community Believed to be World's Largest IMS Rollout*

CUPERTINO, Calif., Feb. 11 -- Ecrio, a pioneer in advanced communications and commerce solutions for mobile phones, today announced that NTT DoCoMo shipments for its PushTalk(TM) enabled mobile handsets have surpassed 30 million handsets. The results encompass slightly more than two full calendar years of shipments.

"We are extremely pleased by the results of our partnership with NTT DoCoMo," said Nagesh Challa, Chairman and CEO for Ecrio. "We were challenged to work across multiple operating systems and phones -- in fact, today Ecrio's solutions have shipped on more than 40 different DoCoMo models. This landmark of 30-plus million phones and NTT DoCoMo's 2007 investment in Ecrio speak volumes about the strength of our relationship moving forward."

### About Ecrio

Headquartered in Cupertino, California, Ecrio is the leading vendor of real time communication and mobile commerce software for mobile phones. Ecrio provides interoperable and standard compliant software to mobile phone manufacturers and mobile operators. Solutions include IMS based applications, such as Instant Messaging (IM), VideoShare, Voice over IP (VoIP), and Push to Talk over Cellular (PoC); and mobile commerce applications, including NFC and MoBeam™ mobile barcode redemption. Ecrio's customers include industry leaders such as NTT DoCoMo, Visa, NEC, Panasonic, Sharp, Fujitsu, Sony Ericsson, Mitsubishi, ASUSTeK and Pantech.
